BY JAMES G. COLBERT Political Cold War Ahead

For Volpe and Legislature Republican Governor Volpe and the Democratic Legislature will be engaged in a political cold war during the coming months.

Indications are that only a small portion of the ernor's legislative program will be enacted into law. Measures which would give Volpe greater power or a political advantage or which would legislate Democrats out of office will meet a chilly rejection.

To Afghanistan

Both Volpe and the Democratic law-makers will be looking ahead to next November's election, and the Democratic politicos don't intend to do anything which would improve Volpe's chances of success at the polls.

Democratic strategy will be aimed pretty much at maintaining the status quo in the hope that a Democrat will be elected Governor next November.

Volpe's chances of obtaining any new or increased taxes to finance expanded public services are slim. Whether he will advocate any tax hikes in his budget

ssage is uncertain. Democratic leaders hope that Volpe will seek higher taxes and that they can create an issue for the

November election by preventing him from getting Beacon Hill observers suspect that the Gover-

nor's recent reference to a rental tax was a trial balloon which quickly exploded under a hostile fire.

Newton Girl Is On Africa Peace Corps Mission

Miss Rochelle Clifton, 23, of 97 Austin St., Newtonville, arrived this week at Freetown, Sierra Leone, West Africa, for 10 days of orientation before she begins a twoyear period as a member of the Peace Corps.

Miss Clifton, daughter of Mrs. Florence Clifton, a social worker in the Waltham welfare office, will teach Euro pean history and physical education in the high school. Her lessons will be in English, but even before her departure from Puerto Rico on New Year's Day, she had begun a study of the native tongue—

She is a 1956 graduate of Newton High School and was a Canadian Exchange student. She graduated Grange (Ga.) College and then taught in a private school at Thomasville, Ga. A scholarship in Asian studies brought her to Boston University at the start of 1961. She also taught at the Junior High School in Holden.

lias serious money problem You cannot go on indefinitely spending yourself into debt without running into trouble When our municipal rating a few years ago dropped from Triple A to Double A, it was ndicative that caution should be exercised, that we should have a little self-evaluation. As of January 1, 1960, our gross debt stood at \$20,273,000. It was 7.45% of our valuation. I believe I have fulfilled my expressed intention of that date to be doubly careful to ex amine every further request for expenditures by the sale of bonds. Today, two years later, our gross debt is \$18,-- a reduction of \$2,-

073,000, or practically 10%. "This in my estimation has this administration, for it has been accomplished while still meeting our obligations for essary school additions and the construction of bonded streets. It has required the co operation of the various de-partments involved, which I am pleased to acknowledge.

"It is my sincere hope that this trend may be continued and I will work earnestly toward this objective. At the same time I must, in all candor, mit that the pressing need for the new incinerator, the North Side Elementary School program, and several other templated projects, all of high priority, and of vital necessity requiring substantal amounts bonded monies, will tax our ngenuity to accomplish purpose and goal of substantial debt reduction within the next few years. It might be phrased "You can't have your

cake and eat it too."
"You can readily understand the problems facing an administration concerned with the forward progress of the community, yet ever mindful of maintaining a just and equitable tax rate. Repeatedly I have called attention to the small percentage of ascending budgets actually under the control of the Mayor and the Board of Aldermen. In the last decade this percentage has dropped from 47% in 1949 to 35½% currently. From this description, is readily apparent the impossible task facing the and Board in their atto even approach a

stable tax rate.
"In 1959 Newton's tax rate "In 1959 Newton's tax rate was \$55 per thousand of as-sessed valuation. Two years later it climbed to \$62.80, an increase of \$7.80 per thousand.

"This is cause for sober reflection, as the end is not in sight. Many reasons are included in this rise: Continued growth of our city, inflation, increased assessments of the the high level of services profor our community. This \$7.80 per thousand is the full impact of increased expenses brought out in the open for public inspection, as no general revaluation program has been applied as an offsetting factor,

"For Newton citizens who have read the enclosures mailed with their tax bills, it is self-evident the lion's share of this substantial increase is attributable to our school budgets. I share with our residents their just pride in the excellent education provided our youth. I am fully cogniz ant of the continuing growth of our school system and the increasing numbers of stu-dents, which require expendi-

tures of a large magnitude.

"However, it is impossible for me to subscribe to the premise that a Newton school budget amounting to \$9,000, 000—37 percent of the entire city budget in 1961—is incapable of even the slightest reduction when preceded to duction when presented to our

"No budget of this size, magnitude and scope can be prepared with the accuracy, the precision that will lead to its adoption by all regular members in the exact form in which it is presented to them. The 1962 budget duplicated the process, except that it had increased another \$885 thou-sand dollars, which is equivalent to slightly over \$3 on our tax rate.

"Budgets at all levels of municipal government must be scrutinized closely, eliminating over appropriations, and spending the balances previous to the close of the year, if we are to contain tax inoccasioned by our growth.

"If the City of Newton is to maintain the efficiency, the morale and dignity of its employees, it is incumbent upon us to pay proper salaries. With this thought in mind, 1960 approved, on my recomof consultants to review and establish job classifications for every position within city government. They also esta-blished a compensation plan on which last year's budget was predicated. first time in the city's history age, developed by professionin the public administra tion and finance field. Upset By Remarks

Mayor Gibbs then swung into a discussion of other sub jects, leaving the School Comnittee members obviously somewhat disturbed by his mittee reference to their handling of the school budget.

He announced his intention of providing funds in his own 1962 budget to carry out a compensation plan for munic ipal employees recommended last year by a consultant firm engaged by the city to study the matter. Between \$35,000 and \$50,000

will be spent this year and again next for the purchase of new snow-fighting equipment the Mayor disclosed. He reported that more than \$100,000 was extended for the same purpose last year.

A \$1.5 million loan order

will be sought later this year to finance the construc tion of a proposed new in-cinerator, Mayor Gibbs told the New Year's Day gath-ering which saw him sworn in and begin his second term.
A \$100,000 planning study

which should lead the way to a redevelopment and renewal program in Newton will be started during 1962, the May or stated.

Gibbs expressed the belief that Newton has arrived at a point where the service of a qualified traffic engineer would be of great assistance and revealed that he will send a message to the Board of Aldermen on this subject in the near future.

Mayor, Aldermen Give **Public Hearing Chill**

Referendum A Mandate

The controversy over fluoridating Newton's water upply flared again this week.

The latest row resulted from a petition by oppopents of fluoridation for a public hearing on the appropriation Mayor Donald L. Gibbs will seek to fluori-

late the city's water system.

The request met with a cold reception both from the Mayor and several members of the Board of Alder-

Mayor Gibbs declared flatly that he regards the fluoridation issue as closed and feels there is nothing more to argue about.

"I consider that the vote or fluoridation in the November election was a man-date from the people," Gibbs

asserted.
"I would be making a mock ery of democracy if I failed to comply with that mandate. "Our whole form of government is based on majority

Two New Plans to Help You Meet **Medical Expenses!**

One out of every eight Americans will go to the hospital this year. The high costs of hospitalization and surgical fees can be ruinous to the average family budget. To help you meet these costs, Metropolitan has introduced two new policies for both individuals and families.

One, for people 55 and under, is the "Paid Up at 65" Plan. This important new plan not only provides coverage during your working period, but also introduces modified coverage after age 65, and continuing for life, without further payment of premiums.

For older folks, there is also a new Metropolitan Policy which can be purchased up to age 75 and continued throughout life. This new plan will help ease the burden of medical expenses for people of all ages who prefer a lower premium plan.

Both of these new plans are guaranteed renewable. However, the Metropolitan Life Insurance Company may adjust the premiums on such policies as a class.

Call or write today for the details of these two new Metropolitan Plans.

"Say Not The Struggle Naught Availeth"

That is the title, and the first line, of a poem that Arthur Hugh Clough wrote a century and a half ago. It is a strange little poem, for two reasons. For one, it is found in all the anthologies of English poetry and so, by itself, has given an otherwise forgotten writer a place in what Rebecca West has called the continuance of literature—for literature, with history, goes on and on, in a certain pattern, like the links of a chain.

Susan Kaswell are assistants to Miss Steiner in the musical production.

For the other, the body of the poem possesses an amazing symbolism that applies perfectly to the great events of the present day—and of the events and crises and defeats and victories that are to come.

Make no mistake about it—we live in a world dominated by two great and totally inimical powers, the United States and the Soviet Union. If history teaches anything, it teaches that prolonged coexistence under these circumstances is an impossibility. One power—war or no war — will become the primary power. It will lead the other nations of the world in a certain direction.

At present the cold war is being fought on an economic front. There are abundant statistics to prove that in this we, and the other Western powers, have a superiority of resources. We are able to produce more of virtually everything the nations of the world want and need. But the East — and it must be remembered that Russia is both an Asiatic as well as a European nation—has vast reservoirs of little-tapped resources which she is now developing. So has China, with her incredible population of some 700,000,000 slaves of the state. And the Communist powers can, and will, direct the whole energies of their dictatorships to the purposes of the dictators.

Under these conditions, it can be expected that there will be an economic stalemate—exactly as, it seems, there is a stalemate of weapons in which each side has the capacity to destroy the other. And if this stalemate occurs, where will the war be fought?

That question is easily answered. It will be fought for minds-for sets That question is easily answered. It will be fought for minds—for sets of principles which go far beyond any material considerations. The peoples of this torn world will be free to do as they choose, within the limitations long imposed by the laws of civilization—or they will be driven by their masters. It is a queer and sorry fact that the nation which speaks out most often against colonialism, the Soviet Union, has become the greatest and cruelest colonial power of the modern age. And it is a queer and sorry fact that the new and underdeveloped nations listen to Russia's siren song and, because of ignorance or misunderstanding, so often accept it. misunderstanding, so often accept it.

What we stand for—and what the West stands for—must be emphasized with all weight at home—in schools, in the churches, in government, in the labor and business and farm organizations—everywhere. We cannot lead if we bor and business and farm organizations—everywhere. We cannot lead if we do not first understand where we hope and intend to lead to. And we cannot qualify and limit the ideal of individual freedom if we are to remain free, and help others to become free.

ty will the 8 reverses. But here is where the symbolism of Arthur Hugh Clough's poem fits us now. The last two verses read:

> "For while the tired waves, vainly breaking, Seem here no painful inch to gain, Far back, through creeks and inlets making, Comes silent, flooding in, the main.

And not by Eastern windows only, When daylight comes, comes in the light, In front, the sun climbs slow, how slowly, But Westward, look, the land is bright."

That is what we must prove — to confused peoples everywhere. ward, look, the land is bright?"

Mr. James H. Remley, Director of the Highland Glee Club used a portion of the rehearsal period to evaluate their efforts in the recent Christmas concert with a tape recording. A real classroom atmosphere prevailed as he pointed out the desirable and the undesirable effects duced by the singers, and how improvement achieved.

Mr. Erlund Field, 32 Shady Hill Road, Weston, was intro-duced as a new member of the Club. Rehearsals are held each Monday evening in the Newton Centre Methodist Church and men with singing voices and a desire to join a male chorus are invited to apply for membership at the time and place of rehearsal or by contacting Mr. George H. Wight, President, at 15 Moreland Ave., Newton Centre 59, or by telephone at Lasell

MAYOR AWAITS SURVEY RESULT

Mayor Gibbs presently is waiting the completion of an engineering survey before he submits his appropriation request to the Aldermen. Indications are that it will be about six months before the water supply actually is fluoridated. Opponents of fluoridation let it be known loud and clearly that they don't regard the issue as resolved and that they believe there's still plento argue about.

They maintain that the vote

IT'S WHAT'S BEHIND THESE FIGURES THAT COUNTS

There's much to the story of our bank this past year that doesn't show in this statement. There's the growth of our popularity - serving more and more people, helping them get ahead. And there's the bank's investment in community progress — helping people develop the thrift habit . . . to become homeowners . . . to know greater security - all adding to community stability and prosperity.

These things don't show in our figures, but are important ... in fact, we think these achievements are some of our most valued assets, reflecting outstanding service that contribute to everyone's progress.

To Interview Teachers For Overseas Duty

School officials from American Dependents Schools System return yearly for a limited time, from Europe and the Far East, to interview school personnel interested in overseas employment.

Rent free quarters and overseas transportation are provided by the Government in addition to the teachers'

salaries.

Berne-Switzerland is often called the most highly industrialized country in Europe.

Newton Man Is Named To Top Raytheon Post

A local man, John G. Stobo, of Waban, has been named to an important position in the merger of the Aero-Weapons and Missile and Space Divisions of the Raytheon Com pany announced at Lexing ton this week.

Stobo was named as assistant manager of production in the new alignment which re-tains the Missile and Space Division name It will combine research, development, design, test, production and field service of military equipment programs from concept through operational use.

Stobo joined Raytheon in 1942 and held a number of supervisory and managerial posts of increasing importance.

In 1955, he was appointed manager of the production department in one of the com-pany's government equipment manufacturing plants and in 1958 was named manager of one of the company's largest manufacturing plants at Wal-

Volpe Takes Strong Stand On Congress Redistricting

Governor Volpe is asserting himself in much stronger terms than he did a year ago when he was beginning his administration as the State's chief execu-

No longer is he treading softly and trying to work out a peaceful co-existence with the Democratic-controlled Legislature. The political wraps of 12 months ago have been thrown aside.

Perhaps it's the confidence which has come with experience. Maybe the fact that this is an election year is partly responsible. Possibly he's looking ahead to the 1964 Republican national convention and taking a long

IRMA ROGELL

Harpsiehord Soloist Is Guest Of Music Club

Newton harpsichordist Irma Rogell will present a recital at the meeting of the Newton High School Music Club next Thursday (Jan. 25) at 3 p. m. in room 2002 of Building II.

During the meeting Mrs. Rogell will talk about her instrument and play portions of her program scheduled for recitals in New York and Boston this year. The meeting will be open to anyone who wishes to attend.

She has a recital scheduled for Feb. 1 at Carnegie Hall in New York and Feb. 18 at Boston's Jordan Hall. She studied harpsichord with the late Wanda Landowska and majored in music at Radcliffe. She made her debut in Boston in April of 1960 and in New York in December of the same year.

Mrs. Rogell is married to Dr. Bernard C. Rogell. They are the parents of Gerald, a graduate of Newton High and now a student at Harvard; Gillian, a sophomore at Newton High and Michael, a sixth

grader at the Mason School.

The Music Club, during its many years of existence at Newton High, has had as a feature of its meetings, visits by renowned celebrities in the field of music. These included Lukas Foss, Richard Rodgers, Leonard Bernstein, Arthur Fiedler, Boris Goldov

Whatever the reason, this is a different John A. Volpe than the man who assumed the Governor-ship a little more than 12 months ago. The conciliatory tones in dealing with Democratic leaders are

This has been reflected in almost everything Volpe has said and done since he began the second year of

his regime on Beacon Hill. The stand he suddenly took on the congressional redistricting issue was so strong it not only surprised most political observers and many members of his own party but all but eliminated any possibility that any redistricting will be enacted this year.

Volpe made it very plain that he will not sign any redistricting bill unless the Democratic Legis-

But Democratic leaders could not meet Volpe's terms if they wanted to do so. Too many Democratic legislators want to protect the seats of all eight

Democratic Congressmen.
The plan drafted by the Democratic-controlled redistricting committee, which Volpe has as sailed as "a program of political piracy," could not get through the Democratic State

Miss Anderer - Mr. Otto Wed At Wellesley Hills Church

Miss Elizabeth C. Anderer, daughter of Mr. and Mrs. Francis J. Anderer of 34 Pierrepont road, Newton Lower Falls, became the bride recently of John Swen William Otto Jr. He is the son of Mr. and Mrs. John Otto of Langford, South Dakota.

St. John's Church in Wellesley Hills was the setting for the pretty winter wedding, which took place at one o'clock in the afternoon. A reception was held at the Maridor in Framingham.

The Rev. Bernard Keenan performed the double-ring nuptials. Seated within the sanctuary was the Rev. Peter Hart.

Given in marriage by her father, the bride's bell-skirted gown of off-white pure silk peau de soie had a scooped neckline and long petal-point sleeves, entraine.

Her matching illusion veil fell from a becoming headpiece made of seed pearls. She carried a bouquet of white roses, stephanotis, centered with a single orchid and accented with ivy.

Three sisters of the bride were her atendants. Miss Jean Anderer was honor maid. while Miss Kathleen Anderer was junior bridesmaid and Miss Karen Anderer was

Newtonite Will Conduct Mass. Music Festival

James H. Remley, 73 Rand lett Park, West Newton, director of the Highland Glee Club of Newton, will be the guest conductor in the Southeastern (Massachusetts) Music Festival to be held in Marshfield on Friday and Saturday of this

week, January 19 and 20.
The Southeastern Music
Festival is one of the several
regional festivals conducted annually in preparation for the All State Music Festival and is an important step in the musical growth of high school youth. The program will consist of separate and combined performances by band, orchestra and a 200 voice chorus.

Members of these musical units have individually audi-tioned and selected from schools in the southeast area on the basis of musicianship. In speaking of the instrumentalists and the singers whom he will direct Mr. Remley "The six compositions selected for presentation have been chosen from the major choral works of the best composers and have become a real challenge to these young musicians. I am confident that they will meet the challenge with a high degree of personal satisfaction to themselves and to their audience."

Mr. Remley is well known as a guest conductor and ap-pears as such several times annually, for many years in Canada and in the United States. In addition to directing the Highland Glee Club he also directs the chorus at La-sell Junior College and is di-

The theft of \$1450 from the home of Alfonso Mauro at 456 Watertown street, Newton, included a man's \$250 wrist watch, two men's rings valued at \$200 and two women's diamond rings worth \$1,000

Two other house burglaries netted a \$600 mink stole and \$765 in cash. The fur piece and 15 silver dollars were taken from the home of Harry Wein er of 130 Andrew street, New-ton Highlands, while the cash was taken from the home Mrs. Shirley Shriber at 20 Cli ton road, Waban.

Survey Shows 150 Potential Shelters Here

Civil Defense Director Leigh G. Packer has reported that a preliminary survey conducted by private engineers for the Department of De-fense, indicates a possible 150 fallout shelters in Newton. However, this total may shrink as much as 50 percent when the buildings are in spected from the inside.

These include schools, libraries, etc., and privately owned industrial firms, stores with large basement space or apartment buildings.

Buildings which ultimately are selected as fallout shelters will be designated after written permits are obtained from owners or lessees. The survey will show how well prepared or unprepared are the various communities.

In addition, the government plans to stock the designated fallout shelters with survival emergency kits and first aid supplies.

No Law-Makers In This Area Involved In Bookie Hearing

No legislators from this area were among those referred to by Representative Harrison Chadwick of Winchester as having been convicted of gaming or of having represented "bookies" in court as attorneys.

That is reported in response to questions from many persons who were left confused and uncertain Chadwick declined to name the legislators at

whom his statements were aimed.

Court records produced at the hearing held by the House Rules Committee showing that two present legislators, one a Democrat and the other a Republican, had been found guilty of gaming, left a good many unanswered questions.

This is an attempt to clear up the doubts of readers who have been wondering out loud whether they are being represented by either of the two law-makers.

Fluoridation Alternate

MAS ESPECIARED RUO

Editor, Newton Graphic:

The public is entitled to know the facts concerning the artificial fluoridation of the public water supply.

Less than 1 percent of the fluoridated water will be used for the purpose for which it is being fluoridated. The balance of the water will go down the drain, into washing machines, on the lawns and gardens, washing autoring biles, into manufacturing biles, etc.

With steadily increasing municipal expenses, the public certainly should be con-cerned about such excessive waste. The cost of fluorida-tion will be added to the water bills of the Newton resi-

While we do not know at the present time the exact figures on the cost of fluorinating the Newton Public Water Supply, we do know that the cost of the machinery will \$100,000, and the cost of the fluoride substance will be at least \$15,000. In addition,

methods of obtaining fluoride treatment are available at low cost, and are recommended by the American Dental Association. The City of Newton can purchase at very low cost, sufficient fluoride tablets to supply the parents in Newton who desire this treatment for their young children. In this way, fluoridation would become available to those desir-ing it, and would not be imposed upon those not desiring it, and the dentist-patient re-

lationship could continue. You must stretch the facts situation Volpe told a New York TV "bookies" while serving on the State Crime Commission ments he made on a coast-to-plays as little as a dime or a which went out of existence in Governor Volpe also is just to a gangster's kitty which fiquarter a week is contributing his nances other cri

Nobody can criticize the Governor's statement. He was absolutely right. Everybody who plays a dime on a num-ber is adding to the financial might of an organized crime syndicate.

But Volpe didn't issue any indignant blasts when Representative Francis W. Perry of Duxbury revealed that a State Waterways Division had awarded contracts totalling more than \$250,000 to a dredging firm headed by a bookie.

That was not a case where a man was accused of being a "bookie" and denied it in court. In this instance the dredging company president registered himself as a "bookie" and obtained a federal wager-

ing stamp.
Other officials who were questioned on the matter said there was nothing illegal about a company headed by a "bookie" doing business with the State. The matter was brushed off and was not even made an issue in the waterways investigation.

Thus we have a paradoxical situation. It's a violation of the law to place a 10-cent bet with a "bookie."

But it's perfectly legal and proper for the State to award \$250,000 in contracts to a company headed by a registered "bookie."

Two New Plans to Help You Meet **Medical Expenses!**

One out of every eight Americans will go to the hospital this year. The high costs of hospitalization and surgical fees can be ruinous to the average family budget. To help you meet these costs, Metropolitan has introduced two new policies for both

One, for people 55 and under, is the "Paid Up at 65" Plan. This important new plan not only provides coverage during your working period, but also introduces modified coverage after age 65, and continuing for life, without further payment of premiums.

For older folks, there is also a new Metropolitan Policy which can be purchased up to age 75 and continued throughout life. This new plan will help ease the burden of medical expenses for people of all ages who prefer a lower premium plan.

Both of these new plans are guaranteed renewable. However, the Metropolitan Life Insurance Company may adjust the premiums on such policies as a class.

Call or write today for the details of these two new Metropolitan Plans.

"or within a building physically connected to and having its sole entrance from such multi-ple dwelling building" so that said Section 23. 4A (a) (5) shall read as follows: "(5) shall read as follows: "(5) Business Services — Where deemed necessary by the Board of Aldermen because of the number of residents to be accommodated on the lot or tract, business facilities for the individual convenience of the residents such as (a) barber shops, beauty parlors, tailors, shoe repair shops and similar personal services, (b) newsstands, drug stores, food shops, dining rooms, and simi-lar retail uses, (c) medical and related professional services (d) gasoline selling and service stations and public garages, and (e) similar services may be conducted within a multiple dwelling building or within a building physically connected to and having its sole entrance from such mul-tiple dwelling building provided: (1) there shall be no entrance to such a place of business except from the inside of the building except for item (d) above; and (2) there shall be no signs or advertising matter on the outside of the building and no illuminated signs in the windows of the

business facilities.' 2. Amend Section 23 4A (a) (6) by striking out the pre-sent (c) and inserting the following: "(c) No building containing dwelling units shall be closer to any other such building on the lot or tract than a distance equal to the sum of their heights, nor in any case closer than fifty (50) feet. The Board of Alder-men in accordance with the procedure provided in para-graph (7) of this section may graph (7) of this section may permit buildings containing no dwelling units, whether or not connected with the building containing dwelling units by a passageway, enclosed or otherwise, or parts of buildings which contain no dwelling units to be erected closer to each other and closer to buildings containing dwelling units in cases where by reason of the location, use, or size of the building on such lot or tract and the relationship of one building to another, there is assurance of adequate light, air, and privacy, and the approval of the site plans by the Board of Aldermen shall constitute the granting of such permission.

3. Amend Sect. 23. 4A (a) (6) by adding three new sections as follows: "(e) For the purposes of (6) only, the word "building" shall not include any part of the building which is below the finished ground level whether connected with permit buildings containing no dwelling units, whether or

level whether connected with the building above ground or not, nor any building housing the ventilating machinery used by such underground part nor any vent or shaft used in connection with such underground part, but in no case shall such part, but in no case snall such underground part and such ventilating building, vents, and shafts be closer than fifty (50) feet to a lot, tract or street line. (f) For the purpose of (6) only, for a building having different roof elevations. the beight of the vations, the height of the building shall mean the height of each section, and each section shall be considered a sep arate building for the purposes of determining the required distance from boundary lines street lines. es, street lines, and other buildings, but not from other sections of the same building.
(g) The height of each section over six (6) stories shall be the mean actual exposed height of the building measured at the face nearest the other building, lot or tract bound-ary line or street line. In the case of a building having dif-ferent roof elevations the height at each roof elevation shall be the sum of the ex-posed faces between and in-cluding such elevation and the nearest other building, lot or tract boundary line or street
